# WHAT OUR CUSTOMERS ARE SAYING ABOUT FLEXSCREEN

I love FlexScreens. My house is over 100 years old. FlexScreens have been a wonderful solution to redoing my old screens. Easy installation. It just snaps right into place. The view through my screens is so clear it's almost like they are not there. I have FlexScreens in almost all of my windows now and will continue purchasing them until the whole house is done.

I rarely write reviews but I was too blown away not to. This company can't do anything else different. I was stressed about screens missing in my bedroom after I bought my home. Quick, easy, economical. A huge weight off my shoulders to get them done. Thank you so much!

**JENNIFER S.**

Super easy to install, they look great and keep the bugs out! I've gone through the effort of replacing the existing screen windows before and I'm so happy to have found FlexScreen. Incredible time saver!

**EDWARD M.**

I had two very difficult to remove and reinstall window screens which resulted in screen frame damage. My new FlexScreens are the perfect replacement for these tight spaces. The fit and finish of the FlexScreen is excellent - I am impressed! Thank you.
